

Environmental Management Services

Quality Policy Statement

Our statement of Policy for Quality is as follow:

Geo Pollution Technologies are committed to comply with the requirements of ISO 9001:2015 the satisfaction of applicable requirements, industry Codes of Practice and to continually improve the effectiveness of the quality management system and services.

The Managing Director of Geo Pollution Technologies is fully committed to the Documented Integrated Management System. It must be clearly understood that this Quality Policy, the Integrated Management System Manual and associated Operating Procedures and systems are mandatory on all staff.

The company defines quality as the conformance of services to established and documented requirements derived from customer needs, employee expertise and experience. Systems are open to constant examination and review by all company personnel and approved third parties enabling observations to be made and incorporated, which provide for continuous improvement and a philosophy of risk control and evaluation.

Geo Pollution Technologies has introduced systems that will set and review measurable quality objectives. *The Managing Director will provide any resources required and with all our staff we will try our best to meet and surpass these objectives.*

Geo Pollution Technologies shall ensure this quality policy and quality objectives are compatible with the context and strategic direction of the Company.

This policy is communicated to all staff by permanently displaying a copy in reception.
